

## Traditional Recycled Plastic Dining Chair

Model: 4111

This Traditional Recycled Plastic Dining Chair will stand many years outside through rain and shine. The dining chair adds a slight touch of elegance to the deck or patio of a hotel, restaurant, or resort. Made from high-density polyethylene (HDPE) lumber to resist the unforgiving outdoor elements and is tougher and more resilient than treated wood. Colored throughout with the color of your choice, this chair requires no repainting and will not fade. For a small upcharge, add a mildew-resistant Sundown Agora fabric seat cushion for extra comfort and style. This product is made in central Pennsylvania and is supported by a 5-year commercial warranty. Ships knocked down to keep shipping cost low and will require easy assembly.
