MONTEREY **FIBERGLASS**

A COMPLETE COLLECTION

SHOWN: MONTEREY FM
845FM-WG-WHA

The Monterey fiberglass market umbrella collection is manufactured using the best and most resilient materials available. The half-inch thick fiberglass ribs allow the frame to bend and flex easily in windy conditions, while the durable aluminum center pole, maintenance free resin, and stainless-steel parts ensure this umbrella will provide years of worry-free shade. Choose from a heavy gauge pulley system, sturdy crank non tilting, or industry-best crank auto tilt. Available in five sizes and six beautiful frame finishes, the Monterey is designed to allow you to bring commercial durability home to your cherished outdoor living space.

Umbrella clearance dimensions are measured while not mounted in a base. Depending on the selected base, these clearance measurements will change. All dimensions have a +/-5" tolerance based on multiple variables; pin placement height, crank tautness and fabric weight.

Please see our "Umbrella Base Guide by Application" on page 48 for recommended base options, based on the umbrella size and desired application (table use or free-standing).
